Election/Restrictions

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims1-4 and 14-16, drawn to apparatus and method to check pressure in helicopter blades, classified in class 200, subclass 385.
 - II. Claims 5-13 and 17-18, drawn to apparatus and method for filling helicopter blades, classified in class 416, subclass 61.

The inventions are distinct, each from the other because of the following reasons:

- 2. Inventions I. and II. are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I. has separate utility such as checking the pressure of an already filled blade. See MPEP § 806.05(d).
- 3. Because these inventions are distinct for the reasons given above and the search required for Group I. is not required for Group II., restriction for examination purposes as indicated is proper.
